

ELIZABETH TECK

Design by
Nathan Yong

Description

An iconic model from the 2013 collection, Elizabeth captivated from the first with its organic, modern approach to the wing chair. As always, Nathan Yong combines the sensual enhancement of materials with fluidity of line.

This year, to extend the benefits of this welcoming nook to the world outdoors and to further reinforce his enhancement of the solid wood, Nathan Yong is adding 2 new pieces to the collection (a low-backed armchair and small settee), both made from splendid solid teak.

The choice of special 'outdoor' covering materials for the cushions makes it possible to use this seating out of doors.
